

Amendments to the Claims:

Please cancel claims 1 - 5 without prejudice or disclaimer of the subject matter thereof, and please cancel claims 8 - 13, which stand withdrawn from consideration as being drawn to a non-elected invention, without prejudice or disclaimer of the subject matter thereof and without prejudice to the right to file a divisional application directed thereto.

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1 - 5 (canceled)

6. (previously presented) A display device comprising:

a back panel which includes a plurality of cathode lines, a plurality of electron sources which are arranged on the plurality of cathode lines, control electrodes which are arranged to face the cathode lines in an opposed manner and control an emission quantity of electrons from the electron sources, and a back substrate which holds the cathode lines; and

a face panel which includes anodes and fluorescent materials, wherein the control electrodes include a plurality of small apertures which allow electrons emitted from the electron sources to pass therethrough to the face panel side at respective regions which respectively face the each electron source, and

each respective electron source is divided into a plurality of small electron sources corresponding to the plurality of respective small apertures provided in each region, and the small electron sources and the control electrodes contain boron.

7. (original) A display device according to claim 6, wherein the control electrodes are made of a metal material.

Claims 8 - 13 (canceled)
